Gladioli, Peonies, Irises

MINNEAPOLIS, MINNESOTA

1815 26th AVENUE NORTH

1923 CATALOGUE

HINTS AS TO ORDERING

Order Early as stocks are then unbroken and you will avoid disappointment. I never substitute without your permission.

Prices quoted on Gladioli are postage paid. Irises and Peonies will be sent by express at purchaser's expense. If you wish small orders of Irises sent by parcel post add 10% additional to the price to cover postage.

Remittances must accompany all orders. Postage stamps will be accepted for small amounts.

I guarantee all my bulbs and plants to be true to name. I use great care in handling my stock, but should a mistake occur I will gladly make it good. Visitors are always welcome to my gardens.

Caution. Be sure to sign your name and write your address plainly on all orders.

All orders are given my personal attention. In this catalogue will be found the newer varieties as well as the indispensable old sorts.

T. A. KENNING, Proprietor.

Join the Northwestern Peony and Iris Society. Dues \$2.00 per year. Send your dues to T. A. Kenning, Secretary, 1815 26th Ave. No., Minneapolis, Minn.

The Gladiolus continues to gain in popularity and will soon be the most widely planted flower in cultivation. Great improvements are being made in the Primulinus Hybrids. The soft colors and graceful spikes make them very valuable for house decorations.

While the Gladiolus is very easy to grow and will stand neglect, the observance of the following simple cultural directions will insure greater

success.

Plant in full exposure to the sun in any well enriched garden soil, avoiding direct contact with manure. Plant any time from April 15th to May 15th or even June 1st. You will have bloom in about ninety days from planting. Plant about four inches deep and about four inches apart. In order to secure a longer period of bloom, plant about eight inches apart and then plant in between when those first planted have come through the ground.

After the first frost dig them up and cut off the tops close to the bulb. After they have dried remove the roots and the old bulb and store in

a dry frost-proof place.

fully ruffled	1.00	10.00

QDIID IO EI	Each	Doz.
Red Emperor. Immense pure, deep scarlet flowers, which are well placed on a tall, wiry stem, magnificent	.20	2.00
Rosella. Large light rose, wide open	.20	2.00
and flat, with a white throat	.10	1.00
Salmon Beauty. Very large flowered primulinus. Deep salmon with rich salmon yellow throat	.15	1.50
Schwaben. Delicate pale yellow with a maroon blotch. A strong grower and a very fine flower	.10	1.00
Shakopee. Salmon pink; salmon blotch on yellow ground, with a plum-colored mark in the center. A distinct and beautiful flower. Our own seedling and can be ob-	50	F 00
tained nowhere else	.50	5.00
son black, with large open flowers. Tall strong grower	.10	1.00
White Wonder. A truly wonderful large pure white, softly tinted pink and entirely without throat markings. Flowers are very large and well placed on strong, straight stems	1.00	10.00
Yellow Hammer. Large beautiful yellow flowers. Strong grower. A valuable addition to the list of yel-		
low varieties	.10	1.00
Forest Heights Mixture. A mixture of good named varieties including many of those listed above		.50
Dollar Collection. For your convenience we recommend the following collection: America, Evaline, Fire King, Halley, Ida Van, Mrs. Francis King, Mrs. Frank Pendleton, Mrs. Watt, Panama, Peace, Pink Beauty, Principine, Schwaben, War; one of		.50
each, separately labeled		1.00

The Iris is a flower which has recently sprung into great popular favor. The modern Iris is wonderfully beautiful, and is fittingly called the "Rainbow Flower." Everyone should have some of the varieties described in this catalogue. They can be planted either in the spring or fall. S. as used in the descriptions, indicates standards or upright petals and F. indicates falls or drooping petals.

The names and spelling and also the synonyms in this catalogue conform to the Iris Check List of the American Iris Society and so may be regarded as authoritative. I have also given the American Iris Society rating of each variety, except on such varieties as have not yet received a rating. The scale is from 1 to 10. Six and seven are considered good, but varieties receiving less should not be propagated and I offer none in this catalogue. Eight is very good, 8.5 fine, 9 very fine, and 9.5 almost perfect.

BEARDED IRISES

Each

<u>u</u>		
1 05	Alcazar (Vilmorin, 1910). S. light bluish violet; F. deep purple with bronze-veined throat. Very striking	8.9

	Twelve at ten times the price of one.	

PEONIES (Fall Delivery Only)

The peony is fast becoming the queen of flowers and rivals the rose in this respect. In mere gorgeousness it easily surpasses the rose and its only drawback is its comparatively short season of bloom. This can be overcome to a large extent by selecting early, midseason and late varieties, also by planting in both sunny and semishaded locations. The peony is an ideal flower for the Northwest, as it is perfectly hardy without coddling.

The numbers preceding the name of the variety indicate the rating given by the American Peony Society on a scale of 1 to 10. The high quality of

Society on a scale of 1 to 10. The high quality of our varieties is evidenced by these ratings.
Each
8.6 Albert Crouse (Crouse, 1893). Very
large flat compact bomb. Sea shell
salmon pink, flecked crimson. Fra-
grant, tall, erect, free bloomer. Like
a big flesh pink carnation, midseason 1.50
7.8 Augustin d'Hour (Calot, 1867). Large
compact perfect bomb without sta-
mens. Deep rose red. Free bloomer.
Stands alone as the best early red
bomb
7.6 Ben Franklin (Brand, 1907). A brilliant
crimson with darker shadings at base
of petals. One of the most striking
dark peonies 2.00
8.1 Corounne d'Or (Calot, 1872). Large
flat semi-rose type. Pure white with
ring of yellow stamens around a tuft
of center petals, tipped carmine. Free
bloomer. Late. One of the best white
varieties
7.1 Delachei (Delachei, 1856). Large, medi-
ium, compact rose type. Violet crim-
son, slightly tipped silver. Medium
height, very free bloomer. Late mid-
season
8.1 Duchess de Nemours (Calot, 1856).
Pure white crown, sulphur white col-
lar, no crimson flecks. Early, free

PEONIES

Each	
.50	Duchess de Orleans (Guerin, 1846). Medium large, compact bomb, Guards deep pink, center shaded salmon with silvery reflex
	7.6 Edulis Superba (Lemon, 1824). Large, loose, flat crown. Bright mauve pink; collar mixed with narrow lilac. Very
.50	fragrant. Strong free bloomer. Early 8.3 Eugene Verdier (Calot, 1864). Very large compact rose type. Pale hy- drangea pink. Outer guard petals
1.50	white. Very erect, strong stems, free bloomer
.75	Vigorous and free bloomer. One of the best red varieties. Late
.50	9.3 Festiva Maxima (Miellez, 1851). Very large globular flower of rose type. Color pure white with crimson flecks. Tall strong grower and free bloomer. One of the best. Early
	3.8 Grandiflora (Richardson). Rose type, very late. Bright seashell pink over- laid with delicate lilac and salmon pink. An immense beautiful peony
